

Mr. Mazhar Mallouhi gave me a copy of the book “The True Meaning of the Gospel of Christ”, and when I read this book innumerable important truths from the beginnings of humanity until the emergence of Islam were made clear to me. These were matters I was not accustomed to reading about and had never heard before, but which I read about in this book. This is one of the most marvelous books I have read in my life, even though my personal library fills an entire room of my house and is composed of many thousands of books. I am a university professor, and have taught at primary, secondary, tertiary and post-graduate levels, and have supervised students preparing for Masters and Doctoral degrees. I have a large number of students whose theses and dissertations I supervise, and I have been on a number of doctoral degree committees.

I want to give my thanks to Mr. Mazhar Mallouhi, and my tongue is unable to express the depth of my thanks to him for the opportunity to delve into this precious and valuable book. Among the truths I discovered in it, for example, is the topic of Christ being the Son of God. This term is one which we are not accustomed to, and all of us along with many other people think that the Lord Christ (his peace be upon us) came into this world as a result of a sexual act. Mr. Mallouhi explains the truth that all of us belong to our home towns, so for example I am from the Province of Babel in Iraq, and therefore I am Babylonian. When the Lord Christ says that he is the Son of God, he means that he belongs to God, and has not come to this world through sexual reproduction or the mating of a man and a woman. The truth is that he is from God. As for the term “the only Son of God,” it refers to the fact that the Lord Christ is the only person who has come into this world apart from the mating of a male and a female, and therefore he is called the Son of God, because he is the only one who has come into the world in this way. He is not the Son of God through biological reproduction or the like. As a result of my knowledge of Christ I have now been inspired to write these verses of poetry for Arab readers:

Understand with your mind when books open to you	And read the book of Christ whose knowledge is abundant
This book explains the Gospel	And other books still need its truthfulness
Add to your knowledge that which you do not know	All that you have read is most amazing
No knowledge will be lost when you delve into it	Religion flourishes in its arranged pages
And every level of learning does it explain	And every line of the Gospel is inscribed
